Dear Lynn:

From 1969 to the present, I have been identifying you as an important researcher in my case.

In your continuing capacity as a researcher in my case, I hereby give you full authorization to study all the records and examine or have examined any and all of the physical evidence--including the bullets which were introduced in evidence at my trial--all of which are now located at the California State Archives in Sacramento.

I ask that the state archivists cooperate with you in facilitating your legitimate research into the documents and items abovementioned.

Best wishes,
